MARTIN, TENNESSEE, MONDAY, MARCH 25, 1935

500 AG BOYS COME HERE FOR CONTESTS

College Ag Club To Sponsor Horse Show

Best Horses in West Tennessee Will Be Shown.—Entertainment For All

The Ag Club in cooperation with the Martin Junior Chamber of Commerce will sponsor the first horse show ever held in Martin on Saturday, April 13, at the Junior College. The show will start at 7 o'clock and will be held under the flood lights on the College athletic field.

The best horses from all over West Tennessee have been consigned in all professional and non-professional classes to this show, and from the entry list it promises to be the best show ever held in this section. A nationally-known authority on horses will be obtained as judge.

Preceding the horse show will be an all-day auction of mules, and other farming equipment, and mule dealers from all over West Tennessee have consigned mules here for the occasion.

A feature of the day will be a parade through the business section. The parade will begin at 3 o'clock, and will include the Martin High School Band, mules, comedy horse riding, and the entire Junior College student body.

There will be no fee charged for entering horses in the show. Entrance blanks may be secured by writing Mr. W. Ray DeMoss, professor of Animal Husbandry at the University of Tennessee Junior College, Martin, Tenn.

All animals will be stabled free of charge in what is said to be one of the finest barns in the State. Generous prizes are to be offered each class of competition, and there is enough money offered as premiums to make showing interesting.

Junior College To Have Dramatics

Series of One-Act Plays To Be Presented in Regular Assembly

Forty-two Junior College students in a meeting Tuesday afternoon, March 19, in the Education lecture room, decided to present a series of one-act plays in assembly. These plays will be coached by Miss Oriole Wisner, instructor in Education and English. The outstanding actors will be offered parts in the annual commencement play to be presented during the last week of the Spring quarter.

The meeting Tuesday was brought about through the persistent agitation of a considerable part of the student body. The Volette sometime ago gave its support to the movement for the return of dramatics to the Junior College.

On account of the short time remaining, the students decided not to organize as a club. Instead, a number of tryouts for one-act plays will be held. No person will be allowed to appear in more than one of these plays. Many regret that there will not be time for a comprehensive study of dramatic theory and technique.

The selection of plays to be presented and the casts will begin in the near future.

Miss Wisner presided at the meeting Tuesday.

The list of the students who attended the meeting is as follows:

Hubert Lampkins, Travis Lackey, Harold Johnson, Glenn Stewart, Hollis Franks, Darnal Gordan, William Boulton, Lou Ella Hill, Katherine Harris, Marion Pearson, Helen Mae Wells, Sam Harrison, Guy Weldon, June Bushart, Jessie Barnes, John Clement, Lem Brinkley, Mary F. Lipscomb, Chas. J. Martin, Marilee Parrish, Melba McLean, Mary Frances Davis, Mary McCaleb, Dixie Ford, James Pritchett, Veldeaurine Rucker, Marguerite Adams, James Jackson, James Jonaklin, Bill Copeland, Cayce Pentecost, Kathleen Jenkins, Julia Eanes, Ernestine Diggs, Naomi Fowler, Charles Williams, Pauline Holmes, Mildred Derryberry, Doris Bolerjack, Josephine Parks, Jane Mayo, and Mayo Pearson.

CAMPUS FACE BEING LIFTED BY T. E. R. A. WORKERS IN VARIOUS PROJECTS

Tennessee Emergency Relief Administration workers have just completed a number of projects on the Junior College campus and farm. The campus has been graded and terraced, the dairy room of the dairy barn doubled in capacity by the enlargement of the north end, the right angle turn leading to the dairy barn replaced by a graceful curve, and the football bleachers reinforced and painted dark green.

Projects for the widening of the paved road east of the boys' dormitory and the cutting down of the hill behind the boys' dormitory so as to decrease the danger of the right angle crossing have been presented for approval.

District Track Meet Is Being Planned

High Schools From Weakley, Obion, and Lake Counties Will Be Represented

Plans are being completed for a district high school track meet to be held on the Junior College athletic field in the early part of May. High schools in Weakley, Obion, and Lake Counties are expected to send entries.

The list of event will probably include all track and field contests except hurdles. The track events promise great interest on account of the talent in many of the schools to be represented and the fact that the Junior College track is one of the best and fastest in this part of the State.

Although the date of the meet has not been definitely set, it will probably be held on Friday, May 3. Coach H. K. Grantham, who is in charge of the meet, will be able to furnish more definite information on the date and the various events in the near future.

Clifton Jones Elected President of Ag Club

Committee Is Appointed from The Club to Sponsor Horse Show to Be Held in April

Clifton Jones, Freshman honor student from Chester County, was elected president of the Ag Club for the Spring quarter at the Club's quarterly business session Wednesday evening, March 13, in the Agriculture lecture room.

Joe Sammons, Freshman from Eads, was elected vice-president, and Erwin Jordan, Freshman honor student from Parsons, will serve as secretary-treasurer. Clifton Jenkins, Sophomore and former president of the Club, was elected Club Critic.

Clifford Bivens and Hoke Pentecost, representatives of the Junior Chamber of Commerce, met with the Club to discuss plans for the Horse Show, which will probably be held on Saturday, April 13. A. B. Reed, retiring president of the Club, appointed the following committees to serve with the ones selected by the Junior Chamber of Commerce in sponsoring the show:

Advertising Committee—A. C. Jones, Virgil Luck.

Soliciting Committee—Clifton Jenkins, Hollis B. Franks, A. B. Reed.

Prof. Ray DeMoss, one of Tennessee's greatest horse and cat admirers, will be chairman of all committees.

The meeting closed with three cheers for the winner of the show, from the thirty Club members present, who are "all set and rarin'" to go to the first horse show ever staged at the Junior College.

AG STUDENTS ATTEND FIELD DAY AT EXPERIMENT STATION

Twenty-five Junior College students, accompanied by Mr. Ray DeMoss, attended the Field Day at the West Tennessee Experiment Station at Jackson on Friday, March 22. They also stopped at Milan to watch a workout of the fine horses owned by Mr. Barriam.

Frosh Take Boxing and Wrestling Intramurals

Pearson, Only Sophomore Entry, Is Planned to the Mat By Weldon

Freshmen boxers and wrestlers made clean sweep of the intramural meet Thursday night, March 21, when Guy Weldon, Freshman, won two falls in succession from Marion Pearson, the only Sophomore who participated in any of the events.

The Weldon-Pearson bout was the first of two wrestling and five boxing bouts which decided the Junior College champions for various weights. "Red" Robbins was unopposed for the heavyweight wrestling crown.

The middleweight wrestling match between Joe Warren and Bill Copeland was declared a draw when, after winning one fall each, the time limit for the third fall passed without a fall for either. Warren won the first and Copeland the second fall.

Sam Harrison won the 133-145 lb. crown on a decision after a close and hard-fought battle with Chester Faulk.

Roy Harris defeated Joe Vineyard for the 146-155 pound title. After a bad first round, Vineyard recovered and threatened Harris during the two remaining rounds.

J. C. Stewart defeated Billy Taylor in the 156-165 pound class in a close and hard-fought battle.

James Formosa was awarded the 166-175 pound crown on a decision over Ben Taylor.

Varon Shanklin battered James Tice to win the heavyweight title. Despite his opponent's advantage of several pounds, Tice offered steady resistance and was doing better at the end than at the beginning.

The officials were Filmore Lyons, referee; "Red" Robbins, timekeeper, Hoke Pentecost and John Garner, judges, and William Saddler, clerk.

Six Schools Enter Literary League Meet

Other Schools Expected to Enter the District Two Meet Here April 12th

Entries have been received from six high schools in the District Two, Tennessee Intrastate Literary League, contests which will be held in the Junior College auditorium on Friday, April 12. Other schools are expected to send representatives.

The schools entered to date are: Martin, Ridgely, Greenfield, Sharon, Dresden, and Grove High School of Paris, Tenn.

The elimination contests will be held Friday afternoon, and the finals that evening at 8 o'clock.

The meet will consist of public speaking, original oratory, declamation, humorous reading, and dramatic reading. Participants must be students in the schools of either Lake, Obion, Weakley, Gibson, Henry, Carroll, or Benton counties.

Winners of the various contests will be eligible to compete in a state contest that will be held at Knoxville in May.

Mr. Everett Derryberry, professor of English at the Junior College, is in charge of the meet. Any further information desired may be secured from Mr. Derryberry upon request.

FORMER FACULTY MEMBER BECOMES LIEUTENANT IN ORGANIZED RESERVES

Mr. James Stitt Corbett, formerly Instructor in Industrial Arts and Mathematics at the Junior College, has recently been promoted to the rank of first lieutenant in the Organized Reserves at Ft. Benning, Ga. During recent months Mr. Corbett has been employed as assistant to the chief engineer at the Civilian Conservation Corps Camp at Selmer. In recent letters to friends in Martin, Mr. Corbett stated the engineering and scientific laboratories and equipment at Ft. Benning excell those of any Southern college he has visited.

STUDENTS LIVE IN VARIOUS COLLEGE BUILDINGS TO LOWER EXPENSES

Did you know that four Junior College students had taken up abode in various buildings on the campus in order to lower the expense of earning a college education? Since the beginning of the Spring quarter Andrew Chambers and William Miles have been living in the basement of the Science building. Frank King and Joe Vineyard have been living in the greenhouse for several months.

Chambers and Miles pay their rent for the Science building basement by tending the incubator there. King and Vineyard pay their rent at the greenhouse by caring for the various plants being grown there.

Community Night To Be April 12th

Many Entries Expected in the Seven Contests to Be Held in Junior College Gym

The Junior College Athletic department is sponsoring the Community Night Contests that will be conducted in the gymnasium Friday night, April 12. A large number of contestants from Martin and the surrounding territory are expected to participate in the seven events to be offered.

The seven contests will consist of fiddling, old time band, jig dancing, whistling, hog calling, cow calling, and quartet. Anyone who can do any of these things is eligible to enter.

The list of prizes to be offered has not yet been completed. Plans are being made to offer an attractive list of prizes for each of the various contests.

Admission will be fifteen and twenty-five cents.

Further information concerning entry, the time of individual contests, and prizes to be offered can be secured from Coach H. K. Grantham, who is in charge of the program.

Jackson Quintet Wins Regional Championship

Bears Defeat Decaturville in Finals—Big Sandy Downs Alamo in Consolation Game

In one of the most spectacular games of the tournament, Jackson Golden Bears, champions of the 4th District, dethroned Decaturville High quintet, 26-24, to become West Tennessee champions for the ensuing year.

The Jackson High football team, which gives the Bears two crowns in one year, T.H. Oman is the coach of the championship teams. A capacity crowd of 1,200 people saw Jackson freeze the ball in the last few minutes of play to win over Decaturville, regional champions of last year.

The lead changed hands several times and neither team ever had a wide advantage. At the half Decaturville led by the score of 16 to 15, but Jackson, led by Ham Howse, came through in the last half to win.

Cheek Duncan turned in a magnificent performance at guard for Decaturville, and was adjudged the outstanding player by the officials and coaches.

With Price, lanky center, in the starring role, Big Sandy won the consolation contest for third place over Alamo High, 41-30.

All-star players, chosen irrespective of positions, by the officials and coaches, were: Duncan, Decaturville; Patterson, Alamo; Estes, Jackson; Price, Big Sandy; Anderson, Bartlett; Holloway, Rives; Howse, Jackson; MacDonald, Memphis Tech; Houston, Decaturville; Cotton, Rives.

The awards were as follows: Jackson, first place winner, the regulation plaque awarded winners of regional tournaments by the Tennessee Secondary Schools Athletic Association; Decaturville, second place winner, a large bronze trophy; Big Sandy, third place winner, a small silver trophy; Alamo, fourth place winner, a tour-

F.F.A. Judging Contest Held Here Next Friday

Annual Rally Consisting of Judging, Speaking and Basketball Tournament

About 500 Future Farmers, with coaches, representing 56 schools in West Tennessee that teach vocational Agriculture will come to the University of Tennessee Junior College next Friday, March 29, to compete in the Annual West Tennessee Livestock Judging Contest. The winners will compete in a State Contest to be held at Nashville. The winners there will compete in the contest to be held at the Mid-South Fair next Fall.

Other features on the program include speaking and an alumni Future Farmers of America basketball tournament.

Frate Bull of Jackson, District supervisor of Vocational Agriculture in West Tennessee, assisted by Ray DeMoss, professor of Animal Husbandry at the Junior College, and the Junior College Ag Club will have charge of the rally.

Each school represented will have two judging teams. The Dairy contest will start at 9:00 a.m. The teams will be divided into six groups which will alternate in judging the six rings of dairy cattle. Prof. C. E. Wylie, head of Dairy Department in the University of Tennessee at Knoxville, will be the official judge.

The livestock contest will also start at 9:00 a.m., and will include two rings of beef cattle, two rings of hogs, two rings of sheep, and two rings of mules. H. R. Duncan, professor of Animal Husbandry at Knoxville, will be the official judge. The winners of the mule judging will compete in the State contest at the State Fair next Fall for the prizes being offered by the National Horse and Mule Association. The score cards, in all classes of livestock, will be the same as those used in the National contests.

A special program will be held in the Physical Education building at 2 o'clock. Dean C. A. Wilson, Mr. Harrington, State supervisor of Vocational Agriculture, and other prominent men will appear on the program. The oratorical contest will start immediately following the general assembly. Winners in the district elimination contests held this week will compete in the regional meet. The speaker will be judged upon (1) content of speech, (2) grammatical structure, and (3) delivery. Prof. Everett Derryberry, professor of English, will have charge of this contest.

Winners of the F. F. A. district basketball tournaments held at Clarksville, Newbern, and Henderson this week, will enter the tournament which will start in the afternoon at the Physical Education building. H. K. Grantham, director of Physical Education at the Junior College, will be in charge.

The Junior College dairy herd, which is one of the highest producing herds in the United States, will be used in the dairy judging contest. Allen Burkett, proprietor of Cloverleaf Farm at Newbern, will furnish some very nice Hereford breeding stock for the beef rings. The mule ring will be made up of teams owned by Mr. C. L. Weldon of Martin, Mr. H. Gardner of Martin, Mr. Russell Smith of Martin, and the Junior College team. The Junior College sheep and hogs will be used in the livestock contest. One class of Duroc brood sows may be secured from Mr. I. J. Shanklin and Sons of Dresden.

LUCK AND COWAN MAKE REPORT ON CONVENTION

Virgil Luck and William Cowan made a report to the International Relations Club, which met Tuesday evening, March 19, on the I. R. C. Convention held at Davidson, North Carolina, during the latter part of February. Luck and Cowan were delegates at the Convention representing the University of Tennessee Junior College chapter.

A good program has been planned for the next meeting, which will be held Tuesday evening at 7:30 on April 3. All members are urged to be present.

MONDAY, MARCH 25, 1935

The entire student body and faculty of the Junior College wish to extend to Mrs. C. C. Cravens their sincere sympathy in the loss of her mother, Mrs. L. T. Roney, of Gleason, Tennessee, who passed away Sunday, March 24.

Vacation Daze

or Seventeen Ways to Drive a Nail

When The Volette reporter sought out Mr. J. Paul Phillips, genial Junior College professor of Education and Psychology now taking his vacation he found his usually mild teacher repairing a window. Mr. Phillips had succeeded in driving a nail on the seventeenth attempt and as a result was feeling better than usual. Mr. Phillips greeted the reporter, repressed an impulse to hurl the hammer on the floor, and lit his pipe.

"How are you?" asked the reporter.

"Better," replied Mr. Phillips. "I drove this last nail after bending it seventeen times, while the one before it bent forty-six times."

Mr. Phillips paused, and began a systematic but unsuccessful search of his pockets. He then borrowed a match and re-lit his pipe.

"Yes," continued Mr. Phillips, with a glow of pride, "I am improving rapidly. The first nail I drove required three hours of steady effort. I worked until ten o'clock that night and drove a total of six nails."

Mr. Phillips borrowed another match and re-lit his pipe before continuing.

"By working steadily I fully expect to finish this window sometime during the next three weeks. During the remainder of my vacation I plan to remove the ashes from the furnace. I will resume my duties at the College Monday, April 15, and by the end of the quarter I hope to be fully recovered from my vacation."

Mr. Phillips, discovering that the reporter had no more matches, refused to comment further on his work and wandered off to the kitchen in the hope of finding a match there.

"Got any rivers you say are uncrossable,
Got any mountains you can't tunnel through;
We specialize on the wholly impossible,
Doing the things no one else can do."

ALUMNI

EFFIE BARTON, is demonstrating home appliances for the Jackson Power and Light Company, Jackson, Tenn.

RUTH MARY KENNEDY, taught school at Stella-Ruth during the past year and is now attending big U. T. at Knoxville.

OPAL ROBINSON is a stenographer, Washington, D. C.

EVIE SUE YOUNGER, and DORIS DUEBERRY are teaching in the Greenfield Grammar School.

SAM BEARD is married and is in the trucking business, Ripley, Tenn. He played football while here.

MACK LOONEY is teaching school at Catula High School, Catula, Tenn. GUY FINCH is assistant County Agent, Lake County, stationed at Tiptonville, Tenn.

ROBERT ELLIOTT is teaching in Ark. He was a football player while here.

A marriage of much interest is that of Miss Theresa Maddox of Memphis, to Mr. Charles C. Johnson of Martin. Mrs. Johnson is a student in the School of Nursing and Mr. Johnson in the Medical College. Johnson attended the Junior College in 1928-29 and 1929-30. The wedding took place in Memphis on Tuesday, March 5.

MILES WILLIAMS, Alamo, recently married Miss Dorothy Barner of Rutherford, Tenn. Williams is teaching at Alamo. He attended the Junior College during the summer of 1934.

NOEL STAFFORD, assistant county agent of Weakley County, is taking a course in the Morgan Business School.

RICHARD TUCK, Martin, was a recent visitor at the Junior College.

ZORA SHOEFNER, former student-manager of the dining hall, has entered the University of Tennessee at Knoxville.

EDWARD JONES, Yorkville, recently visited the Junior College. Edward is at the present engaged in making a survey of sweet potato roots.

R. L. TUCK, Martin, was recently elected County Superintendent of Houston County. He attended the Junior College in 1927-28.

Poet Scorer

A VAGARY OF YOUTH

In a myriad bosoms, surging
Like a storm before the blast,
Stir the virgin stores of destiny,
Which generations yet must cast.

Minds that now are being shaped,
While the patient teachers wait,
Must vamp their holdings later
To the pattern of the state.

Outside reigns a system,
Inside the egos beat,
And the minds must give expression
To these forces when they meet.

In the midst of this confusion,
While the strain begins to test
All the vigor of our being,
Should we take a cut and rest.

Let us loose the bonds of reason
'Till the situation take,
'Till the situation takes,
A strange dream that never breaks.

The pupils shall be the professors,
While the teacher comprises the class,
And his brow is furrowed with wrinkles

As he struggles in the bout to pass.
But really youth holdeth no rancor,
And merely desired this change to bestow

Its pent up measure of devotion.
Which only a teacher can show.
—HAROLD HOFFMAN.

Any silly nonsense sounds reasonable to a girl if it is put in the form of a love letter.

The Transmission of Photographs by Wire

By EDWARD SCHMIDT

Some event occurring in one part of our country appears in picture form in various newspapers in distant cities. Pictures are daily transmitted between London and New York by radio. Similar applications of electricity are television and the talking pictures. We have devices for sorting cigars, fruit and other objects according to color, as well as roller bearings according to degree of polish, devices for regulating the illumination of factories, devices for regulating the current in electric furnaces. The basis of these and of many other applications is due to the so-called "photo-electric effect."

A brilliant application of this photo-electric effect has been made in the transmission of photographs by wire. The sending apparatus for the commercial transmission of pictures consists of a glass cylinder mounted on a screw so that when rotated the cylinder advances laterally. By a suitable system of lenses, a beam of light from an incandescent lamp is focused in a tiny spot upon a negative sheet. If the film is transparent at the spot, light passes through the film and falls upon the stationary photo-electric cell.

The photo-electric cell is a small vacuum tube resembling the familiar radio tube. The light falling on one of the electrodes causes a large electron flow through the cell. As the cylinder rotates, a succession of points of the picture is illuminated by the light pencil. When the light falls on a less transparent part of the picture, the photo-electric effect is less and consequently the current to the receiving apparatus at the other end of the line is less. All electrical energy is due to the movements of the small units of electricity called the electron. Hence the photo-electric effect is the combined influence of light and electricity. The electrical record of the density of the entire negative in the form of an electric current is transmitted over the telephone wire to the point where the picture is to be reproduced and by a mechanism, difficult to describe here, is made to pass through an apparatus, called a "light valve," in synchronism with the rotation of another cylinder, identical with the first and similarly mounted, upon which an unexposed negative is similarly wrapped. A narrow pencil of light passes through a narrow slit in the poles of an enclosed type of electromagnet and falls upon the negative on the cylinder. The varying currents from the transmitting apparatus traverse a thin metal strip that is at right angles to the magnetic field of the electromagnet. Varying amounts of current draw the strip to one side at unequal distances. On "fixing" the photographic paper we have a picture which is a positive of the negative at the transmitting end of the line. The picture consists of narrow parallel lines, close together, of un-uniform width. In practice these strips are made so narrow that in the developed negative they blend into one harmonious whole. Sometimes it is impossible to distinguish the reproduction from the original. The transmission of a picture four inches by five inches requires about fifteen minutes and costs the same as a long distance telephone conversation of equal duration between the same cities.

They Park*

To park or not to park;
That is the question;
Whether 'twill be right for
Hearn and Stanford 'tis hard to say;
But at least someone saw them
Parking the other day.

Mr. Woods to Conduct Extension Class

Course in Household Engineering Will Be Offered For Woman's Club Members

Professor S. R. Woods will deliver his first lecture to the special class in Household Engineering conducted for the Martin Woman's Club at 3 o'clock Friday afternoon, March 29, in the Lecture Room of the Industrial Arts building. This will be the first of a series of six lectures and laboratory exercises that will be held at the rate of one a week for six weeks. This course has been organized at the request of the Martin Woman's Club. The class will be limited to twenty members.

The course will consist of an elementary and popular discussion of the fields of electricity. A study will be made of electrical circuits in the home and of the care and replacement of switches, sockets, plugs, extension cords, and small household appliances. A study will also be made of plumbing troubles. Several periods will be devoted to the study of topics requested by members of the class.

LIFE SAVING COUSE WILL BEGIN TONIGHT

The Life-Saving class will have its first meeting this evening at 7:30 o'clock at the Junior College pool in the gymnasium. The class will be taught by Miss Florence Elliott.

The class will meet again Wednesday and Friday nights. It is understood, and the first five nights of next week, or a total of eight meetings. Students taking the course will be excused from their regular physical education classes.

Football Squad Begins Spring Scrimmage

Twenty-four Players Report For Practice.—Team Reviews Fundamentals

The twenty-four men who reported for Spring football practice Tuesday, March 12, have begun scrimmage after a week devoted to an intensive review of the fundamentals of the game. The squad engaged in its first scrimmage Wednesday afternoon, March 20.

Coach Everett Derryberry states that he is well pleased by the splendid condition and promising appearance of the squad as a whole. Seventeen of last season's letter men have reported for practice.

Later in the Spring the squad will be divided into two teams, the Black and the Orange. Rivalry between these teams in the games they will play is expected to be intense. A captain for this year's team will also be elected by the players.

The list of men who have reported for practice is as follows: Joseph Sammons, James Cunningham, Hubert Lampkins, James Formosa, Peter Curlin, Markey Luttrell, Varon Shanklin, George Owen, J. W. Robbins, James Butler, Lloyd Vaughan, Harold Johnson, William Boulton, Robert Bickers, Raymond Beard, Ben Taylor, Billy Taylor, Roy Greeson, Eugene Exum, Sugg Keiser, Hal McAdams, James Shankle, James Long, and Ben Franklin.

The managers are Clifton Jenkins, James Dent, Marion Delashmit, and Chester Faulk.

Mind your own business unless you're a lawyer and get paid for minding other people's affairs.

Some talk is cheap, and some advice is expensive.

STUDENT CHRISTIAN ASSOCIATION ELECTS OFFICERS

William Cowan was elected president, Marlon Pearson vice-president, and Ann Ozler secretary-treasurer at the regular meeting of the Student Christian Association on Wednesday night, March 13, in the College auditorium. Pearson is the only new officer, the other two being re-elected to positions they have occupied during the last quarter.

The feature of the meeting was the report of Mayo Pearson on his attendance of the recent Student Christian Association Convention at Knoxville.

At the Convention Herbert Dodd, former Junior College student and now a Junior at the University at Knoxville, was elected vice-president by acclamation.

STUDENT PICTURES MADE FOR PERMANENT RECORDS

Prints of the pictures made by Professor S. R. Woods will probably be available for students and the College's permanent records during the latter part of this week. One picture will be kept as a part of the College's records and three pictures will be supplied individual students upon payment of ten cents. Additional prints may be purchased for three cents each. The pictures are sold at cost.

In order to make the pictures at such a small cost it was necessary for Mr. Woods and his assistants to devise a process of making four pictures on one negative. Four pictures are made on one print and then cut apart.

Always look on the bright side of things, if you are buying them look on both sides.

The best way to kill time is to employ it.

Dormitory Meditations

The happenings in this structure for the past week remind the author of the current session of the Legislature. There has been much noise, confusion, unrest, and the spreading of hot air, but no worthwhile events have taken place.

T—
"Ob, Regret, how bitter is thy sting!" This mournful remark was made by several handsome contestants, when they had learned of the winner of one of the places on the "Who's Who" contest. Cheer up! boys, just think of the numerous cigarettes, gum, set-ups, and loans (gifts) that you can refuse now that the contest is over. Oh, what a relief it is not to have to wear a different tie and clean shirt every day.

T—
Confusing Reflections: Do any students purchase eye-glasses because they are absolutely necessary? Does Frank Goff walk easily and carefully because he does not wish to disturb the other students of the dormitory, or is his motive merely a personal one? Could a cyclone possibly be as violent and as destructive as a particular, impetuous curly-headed Soph-

omore? Could the dietician of the dining hall win a hog-calling contest? Could Cowan, if given a chance, "peel a grape" for the one and only Mae West? Should probation students, who have conducted themselves in a manner that is beyond reproach, remain under bothersome restrictions for two quarters? Does there actually exist in this world a girl who is both beautiful and sensible? What causes Luck's mouth to seem so scarlet after a date with a certain beautiful co-ed? Is the Textile instructor's name synonymous with that of a flower called "snap-dragon"? Did Mary Frances Davis actually have a visitor for the president of the Christian Association to meet one Sunday afternoon? Should the course entitled, "Art, or Color Harmony and Its Benefits," be included in the lectures of the Agricultural department, or should it be confined to the Home Ec department? Did anyone, during the recent West Tennessee Basketball Tournament, "remember the Alamo"?

A new American is born every 13 seconds, and a sucker only one a minute; make your own computations.

I'm your best friend
I am your
Lucky Strike

I give you the mildest smoke, the best-tasting smoke. I do not irritate your throat. You wonder what makes me different. For one thing, it's center leaves. I spurn the little, sticky, top leaves . . . so bitter to the taste. I scorn the coarse bottom leaves, so harsh and unappetizing. I am careful of your friendship, for I am made of only the mild, fragrant, expensive center leaves.

LUCKIES USE ONLY THE CENTER LEAVES
CENTER LEAVES GIVE YOU THE MILDEST SMOKE

Special Assembly Welcomes Tourney Players

West Tennessee basketball players, meeting in Martin for the purpose of determining the West Tennessee basketball championship, were welcomed to Martin and the Junior College at a special assembly held in the gym Friday morning, March 15.

The College welcome was extended by Executive Officer Paul Meek, and Professors C. E. Gatlin and R. G. Turner. The City and High School were represented by Mr. Spencer Taylor, superintendent of City Schools. Mr. Taylor also acted as host to the tournament players. Professor J. Paul Phillips made the announcements.

Mr. H. K. Grantham introduced the coaches from the different towns. The coaches expressed their thanks and appreciation to the Junior College and City of Martin for the successful sponsoring of the tournament.

The setting of the assembly was very appropriate, as the players' minds were not removed from their hopes—or at least the place where they prayed that their hopes would come true.

Executive Officer Paul Meek spoke on the relations of elementary and higher education. In part she said, "The elementary schools of our state need a New Deal—the treasured support that they deserve. Not all of our children are privileged to attend high school or college. Therefore, we should put stress upon the importance of the fact that our state Legislature has seen fit to frown on higher education. Whatever the outcome, we should pull for education."

Mr. George Rowlett, trustee of the University of Tennessee, also extended his welcome to the visitors.

Music for the occasion was furnished by Mr. Otis Parrish and the Junior College orchestra. Miss Melba McLean sang a solo, accompanied at the piano by Miss Mildred Derryberry.

Jackson Quintet Wins Regional Championship

name hall. Medina, the winner of the volleyball tournament, received a five-pound box of candy.

Cheek Duncan, for being voted the outstanding player of the meet, was awarded a gold basketball trophy donated by the National Educators' Mutual Association. A gold miniature basketball was presented to the captain of the winning team, the other team members receiving silver miniatures.

Mr. Fred Elliott, secretary of the Association, presented the awards. Pictures of the Jackson quintet and of the all-stars were made following the exercises.

The lineup for the finals was as follows:

Jackson, 26	Pos.	Decaturville, 24
Thompson, 2	F.	Houston, 4
Lindy, 2	F.	Wheat, 4
Estes, 6	C.	Robert, 8
Parham, 5	G.	Duncan, 8
Howse, 9	G.	Chester
Subs: Jackson—McCoy, 2.		
Score at half: Decaturville, 10;		
Jackson, 15.		

CORRECTION—BOLERJACK IS A BRUNETTE

The Volette wishes to offer its apologies to Miss Doris Bolerjack for the following statement, which was made in the article describing her in the last issue of The Volette: "Miss Bolerjack is a blonde, which gives this type a victory." The writer of the article intended to state that Miss Bolerjack was a brunette and that, by reason of her selection as the most beautiful girl in the Junior College, this type had won a victory.

Coaches' Banquet Has Large Attendance

Coaches, Principals, and Superintendents Throughout West Tennessee Banquet March 16

Seventy high school coaches, principals, superintendents, sports writ-

ers, and Junior College faculty members attended the banquet in the new dining hall Saturday evening, March 16. The banquet was sponsored by the Martin High School in cooperation with the Junior College.

A feature of the banquet was the balloting by the coaches on the most valuable player in the tournament. Each coach voted, and Chuk Duncan of Decaturville, received the largest number of votes.

The principal speech of the evening was delivered by Mr. Fred S. Elliott, secretary-treasurer of the Tennessee Secondary Schools Athletic Association. Mr. Elliott spoke on the observance of the rules of the Association.

Mr. D. E. Ray and Mr. W. E. Whitson, members of the governing board of the Association, Mr. Harry Carter, scorer of the tourney, and Mr. T. O.

Griffis, tourney timer, spoke. Mr. Paul Meek made a few brief remarks. Superintendent Spencer Taylor presided.

Mr. Everett Derryberry sang two solos, accompanied by Mrs. Derryberry. The Junior College orchestra provided music for the banquet.

The banquet was prepared by the Foods class in cooperation with the College dining hall. Home Economics students acted as waitresses. The decoration of the new dining hall for this, the first meal served in it, was also supervised and carried out by the Home Economics department.

All present complimented Superintendent Taylor and Coach Grantham on their efficient and fair conduct of the tourney, and the City of Martin and the Junior College on their enthusiastic welcome and many kindnesses shown the visiting teams.
